Qwik Drain™ Drain Pump

Install a sink anywhere, even if gravity drain lines are not available with the Qwik Drain™ preassembled drain pump. The perfect solution for greywater removal in a variety of residential applications including utility sinks, bar sinks, outdoor kitchen sinks, laundry trays, dehumidifiers, or even air conditioning condensate.

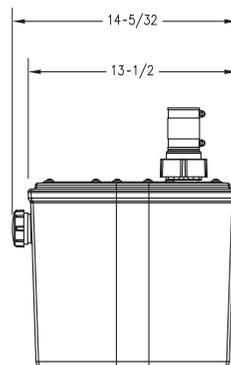

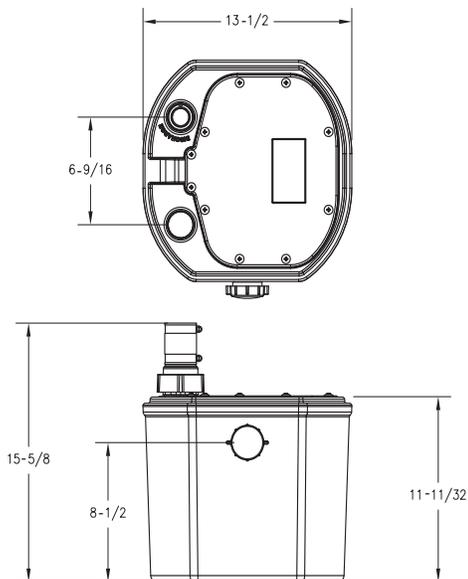

- Preassembled drain pump with a 1/3 HP, 3/8" solids passing pump.
- Clear observation window allows for pump inspection and fast pump access!
- Top and side inlet/vent options.
- Can be installed under most sinks and inside cabinets.

Product Specifications

- Max Operating Temperature: 104 °F (40 °C).
- On & Off point: 6-1/2" (16.5 cm), 2-1/2" (6.3 cm).
- Noise level: <62 dba.

Features

- Odor proofed sealed lid and clear observation window. Keep out unwanted smells and check the water level at any time!
- Compact and quick to install in tight spaces.
- Check valve included!
- Pairs with the high water Qwik Alarm™ (10-5090) for extra protection!
